LINKYOURART

Art is a standard.

The first creative certification standard — objective, transparent, and accessible to every creator in the world.

"Art has always had value. LinkYourArt certifies it, measures it and shares it."

— Jean-Baptiste Lequime, Founder & CEO

An objective standard, out of 1000.

Every creative project is evaluated across 5 pillars, combining algorithmic analysis and review by a committee of certified professionals. Like a rating agency — but for creative work.
