The LYA Standard - Official Definition

A score. A proof of quality.

Not a crypto. Not a currency.

A structured standard - traceable, scored and audited by professional

Validated by professional audit

Every certified project is validated by the LYA Committee.

Patron recognition

Recognition-based considerations, defined at every milestone reached.

From \$50

REFERENCE LEVEL - EVOLVES WITH CERTIFIED MILESTONES

Keep in mind: the LYA Score is neither a financial security nor a tradable instrument. It is a standard of quality and trust.

IMMUTABLE REGISTRY

Every certification is time-stamped and indexed, viewable at any time by all stakeholders.

CONTINUOUS AUDIT

The score evolves with every verified milestone, never arbitrarily or speculative

FULL TRANSPARENCY

Full history accessible to creators and patrons engaged on a project.

Not a crypto. Not a currency

A structured standard, never speculative.

Validated by the Committee, indexed on the registry.

Why 5 pillars

Like a cross-referenced credit rating.

THE HISTORICAL PRECEDENT.

Moody's did the same for debt in 1913. An objective rating standard has always preceded the structuring of a sector that was previously hard to evaluate.

The LinkScore - Proprietary Algorithm

LinkScore Certified

A three-layer algorithm: algorithmic analysis, professional validation, committee certification. Like Moody's - but for creative work.

WHAT YOU ACTUALLY SUPPORT

Supporting a project does not make you a shareholder of LinkYourArt. You receive recognition-based considerations tied to the certified project - personal, non-financial and non-transferable.

Algo

DATA-DRIVEN SIGNAL

Algorithmic analysis is not the author's human opinion. It weighs more heavily than the algorithmic signal alone in the final score.

WHY 5 PILLARS, NOT ONE SINGLE SCORE?

A composite score prevents any single dimension from dominating - like a credit rating that crosses multiple indicators. Committee discretionary adjustment capped at ±50 points, always justified in writing.

Platform - Certification Registry

Discover. Certify.

The LYA Registry covers nine creative industries. The LYA Score reflects a project's real state - not every profile gets certified, which is precisely what gives it its value.

FILM	FASHION	CERTIFIED	AUDIT IN PROGRESS	TV SERIES	UNDER REVIEW	IN PROGRESS	IN PROGRESS	IN PROGRESS	IN PROGRESS
Neo-noir cinematic experience. Complete file, validated by the Committee.				Sci-fi series, pilot season. Partial file, in progress					Cann... .. Funding... ..stones undocumented on on... ..

Not every submitted project is certified. Status evolves with the file: Certified (complete, validated file), Under Review (partial file), Audit in progress (missing evidence on one pillar). The LYA Score is never a formality - it is a real state, traceable at any time.

Film · Fashion · Fine Art · Architecture · Music · Podcast · TV Series · Photography · Gaming - nine sectors already covered, more added every quarter.

HOW A STATUS EVOLVES

1

FILE SUBMITTED, ALGORITHMIC ANALYSIS LAUNCHED COMMITTEE REVIEW, MILESTONES CERTIFIED ONE BY ONE CERTIFICATION COMPLETE

A project can move from "Audit in Progress" to "Certified" within weeks, once missing evidence is provided - the Registry tracks this progress in real time, milestone by milestone.
